

#stop bad things!

We all experience situations when something wrong is happening and people's reactions could change it.

WRITE about past events, things you see every day or consider possible to happen in the future - describe the situation and decide if you did/do/ would react to stop bad things from happening.

SEND your stories on kkd.zsilawa@gmail.com

DO it for 10 days starting on 14 February 2022

It is never easy so is it worth struggling?

stop bad things
